Customer Service will make every effort to resolve your issue immediately. If we are unable to solve the problem within twenty-four (24) hours, you have the right to file a complaint. If at anytime you do not agree with the resolution, you have the right to file a grievance.

The Customer Service representative will explain your rights and how to file a complaint. If you need help filing the complaint, the department will assist you.

When filing a complaint another person can act as your authorized representative. The person may be a family member, friend, or a physician. If you decide to use an authorized representative, you must send written notification to Total Health Care authorizing the person to act on your behalf.

We will contact you by mail within three (3) business days to tell you that the Grievance Coordinator has received your complaint. The Grievance Coordinator will send you a resolution within thirty-five (35) calendar days. If you do not agree with the resolution, you or your authorized representative may file a grievance by mail, email or fax. You can also call (313) 871-2000 or toll free at (800) 826-2862 to file a grievance. The grievance information is included with your resolution letter.

Member Grievance and Appeal Process

A grievance is the process we use to handle your dissatisfaction. A grievance may be due to a denial of payment (to your provider) or an adverse determination. A grievance involving denial of payment, such as lack of authorization or the provider being out of THC's network, is called an administrative grievance.

You have the right to have your benefits continue pending resolution of the grievance. There may be conditions under which you will be required to pay for services provided while your benefits are continued. You also have the right to authorize someone to act as your authorized representative in the grievance. An authorized representative must have your written permission to represent you. You have the right to send additional documentation with the grievance. The member grievance process includes two steps. The first step is to file the grievance and the second step is to appeal the resolution.

As part of your grievance rights, you can request Total Health Care USA to arrange a meeting with the Appeals Review Committee. You can discuss your grievance with the committee. You or

your authorized representative may attend the meeting in person or by telephone. A person not involved in the first decision will review your grievance. No one who reports to the person involved in the initial decision can review your grievance. The person who reviews your grievance will be of a similar specialty.

A medical grievance/appeal will be completed within fifteen (15) calendar days for pre-service and thirty (30) calendar days for a post-service grievance after it is received. You will be notified in writing of the final decision. If the decision upholds the denial, an external appeal can be filed. The final letter tells you of your external appeal rights and how to file the appeal.

Expedited Grievance

In some urgent cases, a time delay may increase the risk of harm to your health or life. A grievance is considered expedited (quick), when a physician notifies us verbally or in writing that waiting the 30 days would cause you to have severe pain or put your life at risk. The physician must be able to support the attestation. Total Health Care USA will not punish a provider who requests or supports an expedited grievance on your behalf.

The grievance must be received within ten (10) days of your denial. If we deny your request for an expedited grievance it is changed to a thirty (30) day grievance. You can request an extension of the decision time. Your extension request moves the grievance to a thirty (30) day grievance.

A decision about an expedited grievance is made no later than seventy-two (72) hours after it is received. Total Health Care USA will notify you of the decision by phone. We will also mail the decision to you within two (2) business days.

After filing an expedited internal grievance with Total Health Care USA, you may file an appeal and request an expedited external review with the Department of Insurance and Financial Services (DIFS).

If the decision upholds the denial, you will receive the specific reasons for the final denial. The notification letter will include the benefit provision, guideline, protocol or other criteria used. Upon request, you will be provided access to and copies of all papers related to your grievance.

External Appeal Rights

You or your authorized representative has the right to request an external review from DIFS. The request should be made after Total Health Care USA notifies you of the final decision. Notification of the final decision completes the Total Health Care USA internal appeal process.

You or your representative must file the DIFS Health Care Request for External Review Form to be given an external review. A copy of the Health Care Request for External Review Form will be included with the final decision letter. You may also call DIFS at (877) 999-6442 to have a form sent to you. The form should be filed no later than sixty (60) days after you receive the final decision letter.

When appropriate, DIFS obtains the recommendations of an independent review organization as designated by the Patients Right to an Independent Review Act. The independent review organization is not a part of Total Health Care. The Commissioner of DIFS will issue a final order.

To ask questions about the external review process, contact Total Health Care.
