RE: PCPIPP Enhanced Payment Update

Total Health Care (THC) is aware that all eligible providers have been anxiously awaiting receipt of the enhanced payment for primary care services due as a result of the Affordable Care Act for dates of service in 2013. We appreciate your patience and wish to advise you that the State has not yet released these funds to THC for distribution. Upon receipt, we will immediately distribute based on receipt of signed physician attestations. It is our intent to get your money to you as quickly as possible.

Please be advised of the following update we received from the Michigan Department of Community Health (MDCH) concerning these monies:

- MDCH is approximately 75% complete in its review of claim data for 1/1/2013 through 9/30/2013. This involves a look-back of all Medicaid encounters submitted from all health plans and with processing computations performed claim by claim.
- October through December claims are being processed for the first time.

Therefore, MDHC wishes to convey that their slow, diligent process to process payments is to ensure that they payments are made correctly.

At this time, we do not have an expected date of payment. Again, we appreciate your patience and the care you provide to our Total Health Care members.

If you wish to discuss this issue, please contact Provider Relations at 313-871-2000, Option 4.
